First Amendment to Master Price Agreement for FLEET ELECTRIFICATION CHARGING, SUPPLIES AND SERVICES

Replace Attachment A In Its Entirety

This Amendment to the Master Price Agreement ("MPA") is entered into this 11th day of July 2025 by LEAGUE OF OREGON CITIES LOC ("Purchaser") and FOREFRONT POWER, LLC ("Vendor") based upon the sales and/or service of Fleet Electrification Charging, Supplies and Services.

RECITALS

WHEREAS, Purchaser and Vendor entered into a Master Price Agreement numbered: PS24190 on or about November 20, 2024, pursuant to a Request for Proposal ("RFP") issued by Purchaser; and

WHEREAS, the Vendor's response to the RFP included a comprehensive pricing schedule detailing the products and services to be provided under the MPA (the "Proposal Pricing Schedule"); and

WHEREAS, due to an inadvertent error, the pricing schedule incorporated into the MPA (the "Original Pricing Schedule") omitted significant portions of the Proposal Pricing Schedule; and

WHEREAS, the parties desire to amend the MPA to replace the Original Pricing Schedule in its entirety with the Proposal Pricing Schedule as submitted in the Vendor's response to the RFP; and

NOW, THEREFORE, Purchaser and Vendor enter into the following:

141	ChargePoint	CPE-250 Commissioning	Commissioning	This service includes both the Installation and Commissioning of the Express CPE250 charging station. Customers must work with their contractor to perform all construction (the 'make ready') up to the point where stations can be bolted down and connected. ChargePoint will then perform the on-site validation of electrical capacity, transformers, panels, breakers, wiring, cellular coverage so that they meet all ChargePoint and local code requirements, then install and commission the station. Before installation can begin, ChargePoint requires the customer's 'make ready' contractor to submit evidence of adherence to ChargePoint's standards and specifications. In addition to verifying and testing the installation, Commissioning also ensures the station is connected to the ChargePoint network, completing software updates and pairing configuration if applicable. In parallel, the ChargePoint Activations team will configure the station and apply policies according to the customer's specifications. A final Commissioning Report will be provided to the customer. Note that if Commissioning cannot be performed due to site or installation deficiencies for which ChargePoint is not responsible, the customer will incur a rescheduling fee to cover redeployment costs.
