- 1) For the Subsidy to be effective, Customer will activate a line of Service under its Master Account. Each line of Service must be activated and maintained for at least 24 months from the date of activation without any suspension or termination of any line of Service (the "Subsidy Term");
- 2) Each line of Service must remain active, without suspension, for a 90-day period following the activation ("Minimum Activations Period");

Minimum Activation Period/Termination. Customer may either (i) pay T-Mobile the aggregate amount of issued subsidy for terminated lines of Service which are terminated before the end of the Subsidy Term within 30 days of termination of the affected lines of Service; or (ii) T-Mobile may charge Customer for the Activation Credits issued for each terminated lines of Service and Customer agrees to pay T-Mobile for the Subsidy issued to Customer for the terminated lines within 30 days of issuance of notice by T-Mobile.

Rate Plan Terms and Conditions:

Requirements for the Government Unlimited Rate Plan with Subsidy Allowance and First Responder Government Rate Plan with Subsidy Allowance - Smartphones & Tablets

- 1) For the Subsidy to be effective, Customer will activate a line of Service under its Master Account. Each line of Service must be activated and maintained for at least 24 months from the date of activation without any suspension or termination of any line of Service (the "Subsidy Term");
- 2) Each line of Service must remain active, without suspension, for a 90-day period following the activation ("Minimum Activations Period");
- 3) Each line of Service must be activated in accordance with the terms of the Agreement;
- 4) Each line of Service which is activated under the Master Account can only qualify once for a device subsidy during the Initial Term;
- 5) The subsidy cannot be combined with any other discounts, credits or promotional offers; and
- 6) Customer's account with T-Mobile must be in good standing to receive the subsidy.

Minimum Activation Period/Termination. If any line of Service that received a Subsidy or any other future credit that T-Mobile may agree to provide to Customer is terminated prior to the end of the Subsidy Term, then Customer agrees to pay or reimburse T-Mobile the pro rata portion of the Subsidy that has been credited by T-Mobile to the Customer for each terminated line of Service (for purposes of illustration only, if Customer terminates the applicable line 12 months following activation, and if T-Mobile has issued a subsidy of \$150 for such line, then Customer will reimburse T-Mobile \$75 (i.e. 50% [12/24 months] X \$150) for such terminated line). Customer may either (i) pay T-Mobile the aggregate amount of issued subsidy for terminated lines of Service which are terminated before the end of the Subsidy Term within 30 days of termination of the affected lines of Service; or (ii) T-Mobile may charge Customer for the Activation Credits issued for each terminated lines of Service and Customer agrees to pay T-Mobile for the Subsidy issued to Customer for the terminated lines within 30 days of issuance of notice by T-Mobile.

General Rate Plan Terms and Conditions: On all T-Mobile plans, for the small fraction of customers using >50GB/mo., primary data usage must be on smartphone or tablet. Data Stash: Up to 20 GB of on-network data from past 12 months carries over to next billing cycle for as long as you maintain qualifying service. Coverage not available in some areas; we are not responsible for our partners' networks.

For purposes of illustration only, if Customer cancels a License in month 3 of a 12-month License subscription with an MRC of \$57, Customer will pay T-Mobile \$517 (plus any applicable, taxes, fees and surcharges) for repayment of the remaining 9 months of the Minimum Service Term, shown as $9 \times \$57 = \$512$. For purposes of illustration only, if Customer cancels a License in month 3 of a 12-month License subscription with an MRC of \$57, Customer will pay T-Mobile \$517 (plus any applicable, taxes, fees and surcharges) for repayment of the remaining 9 months of the Minimum Service Term, shown as 9 x \$57 = \$512. Requirements for the Government Unlimited Rate Plan with Subsidy Allowance and First Responder Government Rate Plan with Subsidy Allowance - Smartphones & Tablets

1. For the Subsidy to be effective, Customer will activate a line of Service under its Master Account. Each line of Service must be activated and maintained for at least 24 months from the date of activation without any suspension or termination of any line of Service (the “**Subsidy Term**”);
2. Each line of Service must remain active, without suspension, for a 90-day period following the activation (“**Minimum Activations Period**”);
3. Each line of Service must be activated in accordance with the terms of the Agreement;
4. Each line of Service which is activated under the Master Account can only qualify once for a device subsidy during the Initial Term;
5. The subsidy cannot be combined with any other discounts, credits or promotional offers; and
6. Customer’s account with T-Mobile must be in good standing to receive the subsidy.

Minimum Activation Period/Termination. If any line of Service that received a Subsidy or any other future credit that T-Mobile may agree to provide to Customer is terminated prior to the end of the Subsidy Term, then Customer agrees to pay or reimburse T-Mobile the pro rata portion of the Subsidy that has been credited by T-Mobile to the Customer for each terminated line of Service (for purposes of illustration only, if Customer terminates the applicable line 12 months following activation, and if T-Mobile has issued a subsidy of \$150 for such line, then Customer will reimburse T-Mobile \$75 (i.e. 50% [12/24 months] X \$150) for such terminated line). Customer may either (i) pay T-Mobile the aggregate amount of issued subsidy for terminated lines of Service which are terminated before the end of the Subsidy Term within 30 days of termination of the affected lines of Service; or (ii) T-Mobile may charge Customer for the Activation Credits issued for each terminated lines of Service and Customer agrees to pay T-Mobile for the Subsidy issued to Customer for the terminated lines within 30 days of issuance of notice by T-Mobile.

***Requirements for the Government Unlimited Rate Plan with Subsidy Allowance and First Responder Government Rate Plan with Subsidy Allowance - Smartphones**

1) For the Subsidy to be effective, Customer will activate a line of Service under its Master Account. Each line of Service must be activated and maintained for at least 24 months from the date of activation without any suspension or termination of any line of Service (the “**Subsidy Term**”);

2) Each line of Service must remain active, without suspension, for a 90-day period following the activation (“**Minimum Activations Period**”);

3) Each line of Service must be activated in accordance with the terms of the Agreement;

4) Each line of Service which is activated under the Master Account can only qualify once for a device subsidy during the Initial Term;

5) The subsidy cannot be combined with any other discounts, credits or promotional offers; and

6) Customer’s account with T-Mobile must be in good standing to receive the subsidy.

Minimum Activation Period/Termination. Customer may either (i) pay T-Mobile the aggregate amount of issued subsidy for terminated lines of Service which are terminated before the end of the Subsidy Term within 30 days of termination of the affected lines of Service; or (ii) T-Mobile may charge Customer for the Activation Credits issued for each terminated lines of Service and Customer agrees to pay T-Mobile for the Subsidy issued to Customer for the terminated lines within 30 days of issuance of notice by T-Mobile.

Customer may either (i) pay T-Mobile the aggregate amount of issued subsidy for terminated lines of Service which are terminated before the end of the Subsidy Term within 30 days of termination of the affected lines of Service; or (ii) T-Mobile may charge Customer for the Activation Credits issued for each terminated lines of Service and Customer agrees to pay T-Mobile for the Subsidy issued to Customer for the terminated lines within 30 days of issuance of notice by T-Mobile.

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, National Purchasing Partners (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through your DocuSign, Inc. (DocuSign) Express user account. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of your DocuSign account. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use your DocuSign Express user account to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through your DocuSign user account all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

For such copies, as long as you are an authorized user of the DocuSign system you will have the ability to download and print any documents we send to you through your DocuSign user account for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of your DocuSign account. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use your DocuSign Express user account to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through your DocuSign user account all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. 3.24. Sprint Secure Wi-Fi

- A. Secure Wi-Fi.** The following options may be added to a Sprint voice Business Plan on a per-Corporate-Line basis for the listed additional MRC, unless otherwise noted.
- B. Description.** Secure Wi-Fi is a Smart VPN Application (the "Secure Wi-Fi Application") that helps protect users of certain smartphones and tablets while they are using Wi-Fi. Once enabled, the Secure Wi-Fi Application automatically turns on when a user joins an unsecured Wi-Fi network and turns off when the user returns to the cellular network or otherwise disconnects from the unsecured Wi-Fi network. Additionally, the user may opt in to utilize the Secure Wi-Fi Application when engaging a password-protected Wi-Fi network. Secure Wi-Fi may detect if a Customer VPN has been invoked by the user, in which case Secure Wi-Fi will not activate as the overlap of VPN technologies would be redundant. Unsecured Wi-Fi traffic that isn't encrypted (http), is then encrypted by the Secure Wi-Fi Application through geographically distributed, cloud-based servers. Secure Wi-Fi helps to protect against malicious users and content seeking to misuse private data transmitted over a Wi-Fi hotspot, but Sprint does not guarantee complete security for Customer data because vulnerabilities may still exist and could be exploited.
- C. Secure Wi-Fi.** Secure Wi-Fi may be added for an additional MRC. Secure Wi-Fi requires an eligible Sprint Business Plan.
