SiteSync IQ® Wireless System *Helping solve your timekeeping needs*

5 Year WARRANTY

FCC COMPLIANT

The Wireless Solution for:
Schools
Healthcare
Universities
Manufacturing
Government

The SiteSync IQ Wireless Clock System provides wireless synchronized time throughout your facility to improve productivity and reduce maintenance costs.

Multiple Time Sync Options – Synchronize your facility with NIST, the world's official time source:
- Ethernet-using a Local Area Network connection (LAN)
- GPS-using satellite signals

Guaranteed Signal Coverage with One Transmitter – With transmitters from 5 up to 40 watts, we have a size for every facility or campus.

No Hassle 100% FCC Compliant – Use our FREE, shared nationwide FCC license with no paperwork to fill out. Or, if you prefer your own license, we'll help with the process.

Run Your Existing Wired System – SiteSync IQ, with optional signal circuits and wired clock circuits, runs your existing system, including bells, wired clocks, lights and more.

Clock Power Options – Battery Booster pack for 5+ years of operation or AC/electric-powered clocks.

Remote Ethernet Access – Schedule activation of your wired and wireless devices via Remote Connect. Integrate with your intercom to signal class changes.

Programmable Message Boards – Communicate messages throughout a facility with ease via Remote Connect web interface.
