Dear John,

In early last year (2018) we engaged your firm to help reduce our telecommunications expense, as we knew there were some saving and changes to be made. We arranged for the technicians to arrive and we discussed my concerns with them handling SGMC equipment. Once introductions were made, there was never any doubt that your firm knew what they were doing and was very weary of my time. The techs assured me that all changes would come through me for final review, which allowed me to approve and disapprove certain changes.

Not only has your firm found substantial savings for South Georgia Medical Center, but also the experience has been the best. I appreciate the effort, results and your continued engagement with South Georgia Medical Center. I would be glad to recommend your firm to any of my peers who need to reduce their telecom spend.

Sincerely,

A handwritten signature in black ink, appearing to read "Derrick L. Clement", written in a cursive style.

Derrick L. Clement
