### Sustainable Cost Reduction Solutions: Telecom

**Success Rate - We find savings 98% of the time.**

- **Telecom savings average 24%**

#### Experience

Each analysis is performed by professionals experienced in their field. TCVG's current satisfied client base includes over 1,300 enterprises nationally including health systems, municipalities, school districts, businesses and universities.

**We are proud to note our service to the Department of Homeland Security and the United States Coast Guard.**

#### Best-in-Class Pricing Advantage

Our national proprietary database allows us to input your current vendor pricing and compare what you are being charged with what your current vendors are charging businesses of the same size. Our next step is to analyze other vendors' charges of like-sized companies. We will seek and implement those best-in-class prices for you.

#### Expense Reduction

Our process will reveal ways to reduce expenses – immediate hard cost reductions – so you will not have to cut spending to mission critical programs or staff.

#### Recovered Monies

We will identify where you have overpaid and recover the overcharges from your vendors.

#### Findings and Recommendations Report

Our preliminary report displays your current environment with our proposed recommendations for savings for each of the areas you choose for us to review.

#### Performance Based Fee

Our fee is a percentage of actual, realized savings.

**Telecom:** Analysis includes on-site line inventory, review of all local, long distance, internet, cable, data, cell phones, and pagers. Recovery from previous years of overcharges and erroneous fees.

**Savings average 24%**

**Telecom Line Inventory:** Matches every line to each invoice. Our team of telecom experts has over 500 years of combined experience.

#### No Time Commitment

Our service is contingent, transparent, and seamless. There is very little time spent on your end.

**Hospital in Southern FL** – Due to an on-site review, TCVG provided a hard cost reduction of over 25% by removing services that were not being used but were still working on the wall and had not been ordered disconnected. TCVG provided a credit of over \$1.75M for services that had been disconnected and not removed from the invoice. TCVG did not change provider.
