

Responder Connect

ARRIVE ON SCENE WITH **FULL SITUATIONAL AWARENESS**

WHAT IS RESPONDER CONNECT?

Responder Connect enables first responders including Police, Fire, and Emergency Medical Services (EMS) to gain situational awareness of an emergency incident even before they arrive on scene, via live video, dynamic location, and more. Responder Connect works without requiring an app download and can be used without a password unless required by your organization.

LIVE VIDEO (Patented)

Responder Connect can provide you live video from the scene of the emergency using ubiquitous mobile devices simply clicking a link on the caller's phone, without requiring an app download. Take guesswork out of your operation.

ACCURATE, DYNAMIC, CALLER LOCATION

Know the exact location of your caller using Carbyne location included in Responder Connect, even when ANI/ ALI fails, and AML/ ELS fails.

For more information or to schedule a demo, visit carbyne.com

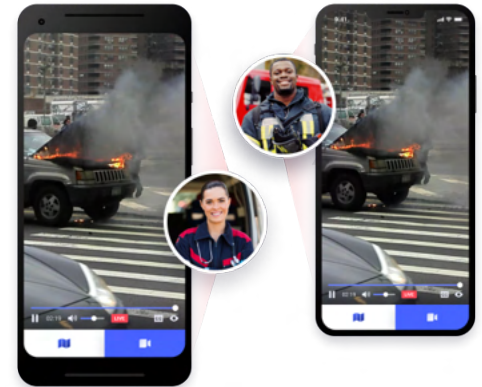

NO APP DOWNLOAD

For first responders including Police, Fire, and Emergency Medical Services (EMS), precious seconds can mean the difference between a good outcome and tragedy. No more waiting on apps to download. Simply click the provided link and you can see what your caller sees.

NO PASSWORD REQUIRED

Responder Connect does not require a password, enabling your field responders to gain situational awareness to the caller's video and location without agonizing delays. Seconds can mean the difference between success and tragedy, and Responder Connect is optimized for expedited response times.
