

Universe

INSTANTLY MODERNIZE YOUR EMERGENCY OPERATIONS

WHAT IS UNIVERSE?

Universe is a revolutionary cloud-native mission-critical situational awareness platform with the following key differentiators:

Same Day Installation

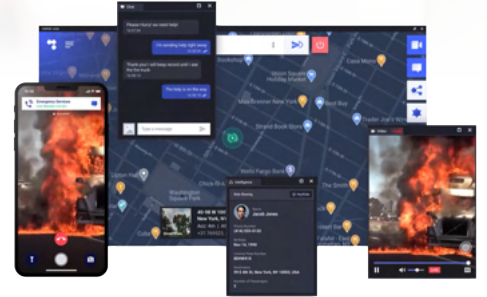

Cloud Native Platform

Zero-Trust-Architecture Security

Live Video (Patented)

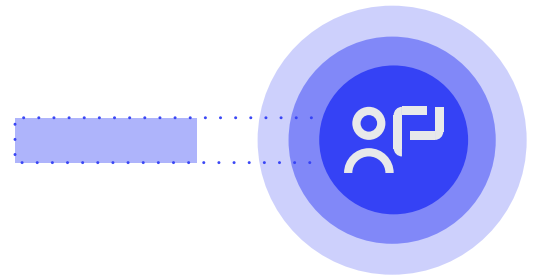

Silent Instant Messaging

Accurate, dynamic caller location

SAME DAY INSTALLATION

Carbyne Universe is an over-the-top solution which complements your existing systems to provide you with unprecedented situational awareness regarding the caller's emergency.

CLOUD NATIVE PLATFORM

Don't let hurricanes, floods, fires, earthquakes, power outages, terrorist attacks, and other catastrophes stop your mission-critical operations. Universe is a cloud-native platform to enable your life-saving operations to continue running when the unthinkable happens.

For more information or to schedule a demo, visit carbyne.com

ZERO-TRUST ARCHITECTURE SECURITY

As a cloud-native platform, Universe supports industry-leading Zero-Trust-Architecture (ZTA) security to ensure your systems and data are off-limits to hackers on the internet.

LIVE VIDEO (Patented)

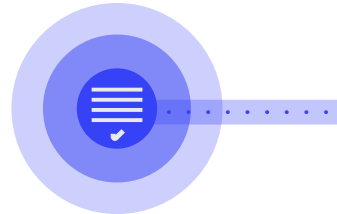

Carbyne Universe can provide you live video from the scene of the emergency using ubiquitous mobile devices simply clicking a link on the caller's phone, without requiring an app download. Take guesswork out of your operation.

SILENT INSTANT MESSAGING

When your caller is in an unsafe environment when speaking aloud is not an option, Universe Silent Instant Messaging can help you maintain real-time communication when it matters most.

ACCURATE, DYNAMIC, CALLER LOCATION

Know the exact location of your caller using Carbyne location included in Universe, even when ANI/ ALI fails, and AML/ ELS fails.
