## Public Sector Safety Solutions

Safety reporting app for K-12 Schools, Universities, Organizations, Municipalities, Counties, and States

**Smart Button®** is an innovative safety panic button app for schools, higher education, organizations, or government entities.

Our patented alerting technology connects either K-12 schools, college campuses or municipal locations with triage team(s) and/or law enforcement in real-time during a crisis situation.

We help you to strengthen and shorten response times to a crisis in comparison to traditional 9-1-1 methods.

## Highlighted Features

- **Silent Panic Alarm Alerts**  
Report situation and GPS location of the incident.
- **911 Direct Panic Alerts**  
Connect with law enforcement, send incident alerts to dispatch.
- **2-way Secure Chat System During a Crisis**  
Users can directly message campus safety groups or specific individuals (school officials, leadership, etc.)
- **Emergency Communications and Notifications**  
Send broadcast notices to staff in one or more groups. Alerts are delivered to users as an app push notification, text and/or email.
- **Curated Emergency Planning Resources (EMS)**  
Emergency plans, procedures, protocols, floor plans, and local resources can be published & made instantly accessible for users.
- **Reunification of Faculty/Staff**  
Staff can check-in and set safety status during drills or in a crisis.
- **Reunification of Students**  
Mark and track student's safety status during drills or in a crisis.
- **Drill Management**  
District administrators or staff can schedule, initiate, manage, report and track drill exercises. Drills can be done at a school or at a district level.
