LEVI

ESPORTS CHAIR

Durable, comfortable, and functional, MiEN's Levi Esports Chair is engineered for high performance during your long gaming sessions. Elevate your video-gaming with top-grade ergonomics and a task chair designed by MiEN's esports experts for everyday use in your esports lab. This chair can be adjusted in a variety of ways to suit any gamer or content creator.

HIGHLIGHTS

- Adjustable height (pneumatic)
- Adjustable headrest (4" range)
- Adjustable lumbar support (height & depth)
- Adjustable armrests
- Adjustable seat slide (2" range)
- Vented back for airflow
- Tilt & lock lever
- Aluminum 5 star base

SHOUTCASTING STATION

ESPORTS STATION

Step into the future of esports broadcasting with the Shoutcasting Esports Station. Designed to elevate your gaming experience, this state-of-the-art command center offers customizable backlighting and personalized graphics, ensuring your setup is as unique as your style. Built with durable materials, it withstands intense gaming sessions while providing a professional-grade workspace. Illuminate your broadcasts with vibrant colors, and stand out with high-resolution graphics that reflect your brand. With its robust construction and tailored features, the Shoutcasting Station is the ultimate platform for captivating your audience and enhancing your esports performance.

HIGHLIGHTS

- Customizable backlighting
- Personalized high-resolution graphics
- Durable, high-quality construction
- Ergonomic design for extended comfort
- Ample space for multiple monitors and equipment
- Easy cord management with grommets
- Twin wheel casters (2 locking, 2 non-locking) for mobility
- ADA compliant design

CHAMELEON

GECKO GREEN

SOFT SEATING

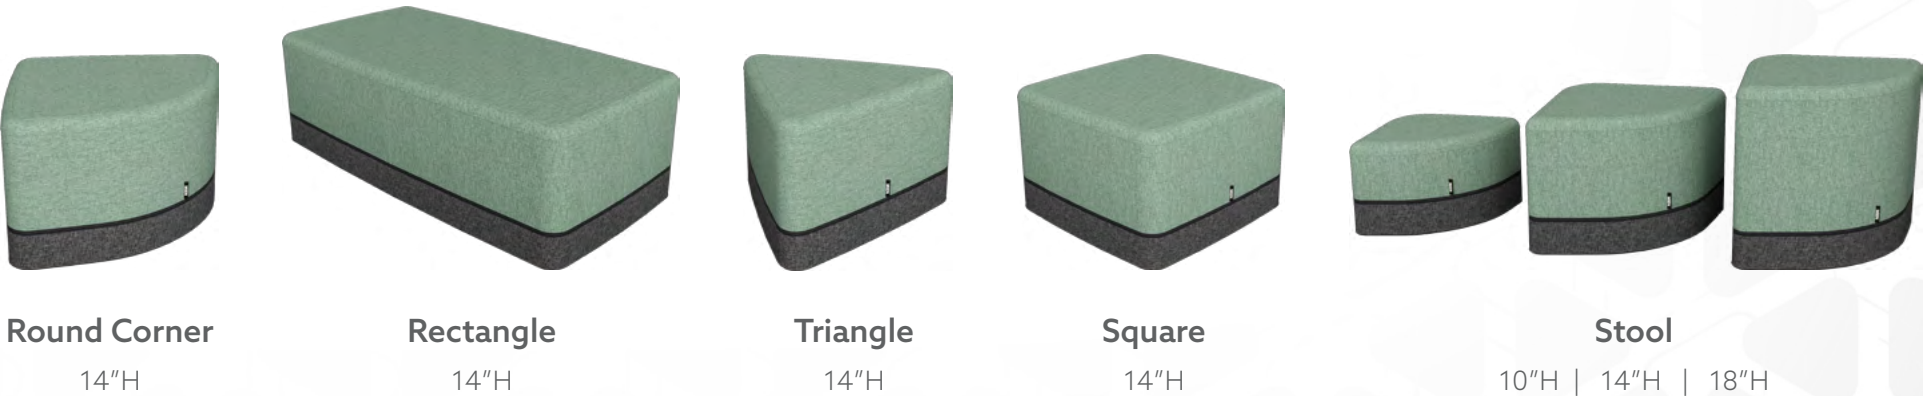

Introduce vibrant and sustainable comfort to early elementary environments with the Gecko Green Eco-Friendly Early Elementary Soft Seating. Perfectly sized for young learners, this collection features recycled materials and is crafted with eco-friendly fabrics, ensuring a playful yet durable seating option for classrooms, libraries, and common spaces.

HIGHLIGHTS

- Sized for young learners
- Eco-friendly fabrics
- Modular design
- Simple cleaning
- Made in USA

FABRIC OPTIONS

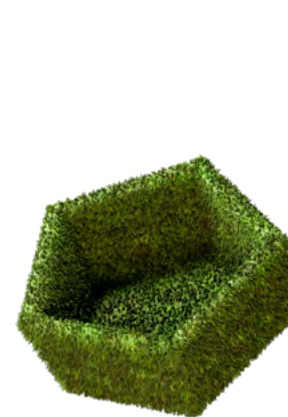

GROW SERIES

Enhance your environment with the Grow furniture line, where biophilic design meets functional style. This collection not only supports Social & Emotional Learning (SEL) by fostering self-control but also incorporates elements of nature indoors to promote well-being and creativity. Designed for inclusive settings, it caters especially to neurodiverse learners, including those with autism, by providing subtle sensory engagement and clear spatial boundaries. Made from premium materials like high-density polyethylene foam and light grass turf, Grow invites the tranquility of nature inside, creating a soothing and stimulating space for all.

HIGHLIGHTS

- Flexible grouping options
- Lightweight
- Rearrange for evolving environments
- Environmentally-friendly materials
- Made in USA
- Ships fully assembled
- Simple Cleaning

HIH PNEUMATIC BALANCING STOOL

The HIH Pneumatic stool with two height-adjustable ranges was made for the active learning environment. Ideal for group learning, this self-balancing stool promotes movement without leaving the seat. A healthy classroom is designed to allow for healthy sitting habits and mobility. Quickly change the environment of the classroom with these fun, easy-to-move stools. Rubber ledge on lip of stool seat allow users to easily hang it up on a table edge when not in use.

14\"H - 18.5\"H

15.5\"H - 21\"H

HIGHLIGHTS

- Available in two adjustable height ranges
- Self-balancing and self-stabilizing
- Bright color options
- Stable, rubberized trumpet base
- Durable, clean construction
- Meets or exceeds ANSI/BIFMA standards
- GREENGUARD Certified
- CAL 117 & 133 Compliant
- U.S. Patent No. D1001521
- © MiEN Company 210,535

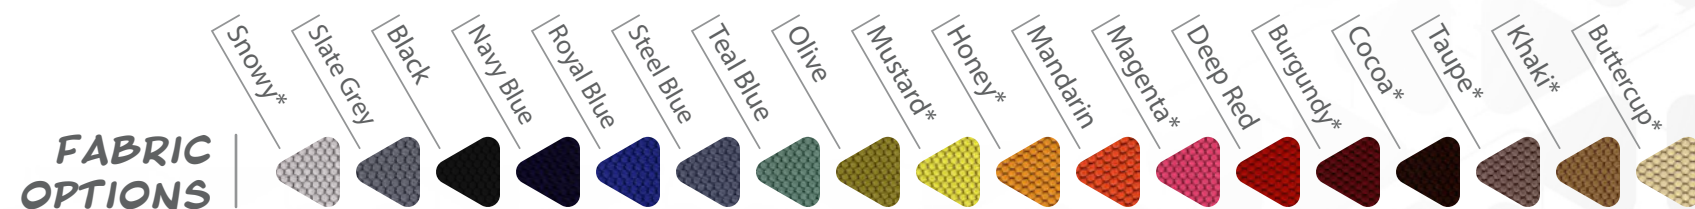

RKR

HEIGHT ADJUSTABLE STOOL

The RKR Adjustable Stool is a perfect solution for active students in a classroom allowing students to move naturally while staying in a stationary position. A constant state of movement occupies the student so their focus can remain on learning. Weighted on the bottom with a special floor grip, the RKR is similar to the exercise-ball concept, but with a smaller footprint and looks great in any space. Teachers love them too! The self-balancing feature allows an instructor to make quick and easy transitions from one teaching mode to the next. Use them in an art room, classroom, or lobby space, but don't stop there. The RKR is suitable to all kinds of applications and is available in array of seat fabric and vinyl options.

HIGHLIGHTS

- Contemporary style integrated with ergonomic design. Perfect for any environment, including education and office spaces.
- Self-balancing and self-stabilizing for both safety and comfort
- Looks great in any space. With a huge array of fabric and vinyl upholstery options, pick whatever fits your environment!
- Eco-friendly, durable construction
- Meets or exceeds ANSI/BIFMA standards
- GREENGUARD Certified

* = These colors may not be heavily stocked & could be subject to longer lead time as well as having a MOQ - contact MIEN for more info

STAR

CHAIR

Artfully modern aesthetic blended with quality design, the STAR Chair is the perfect balance between comfort and sophistication for pre-teen ages all the way to adults.

The plus-shaped back allows for sideways or backward sitting along with the forward position contour seat for easy conversation and collaboration.

Ranging from cafés, to informal places for meet-ups, or to use in conference rooms, this exclusive design promotes comfort and supports an innovative design in any learning environment or corporate space.

HIGHLIGHTS

- Lightweight & durable
- Modern shell design
- Winged elbow rests
- Chair stacks 4 high (4-leg only)

MUST+

SIT-2-STAND STUDENT TABLE

You MUST see this table if you have been looking for a cost-effective way to add standing height tables to classrooms. Not only will the MUST+ Sit-2-Stand table & lectern provide standing height surfaces but quickly adjusts from seated to standing height in a snap. Tilting top mechanism allows the table to be used as a lectern or fold the top down to nest and stow tables away when not needed. Wheelbarrow casters make nesting or moving around the classroom easy. The large desktop size is great for day-to-day use, or for use as a lectern.

HIGHLIGHTS

- Height adjustable
- Wheelbarrow casters
- Wooden pencil ledge
- Staggered leg design for efficient nesting
- Hinging top for use as lectern
- Pat. No. D921408

THE MIEN VALUE

DESIGN:

When it's about crafting the perfect environment, MiEN Company is your ideal partner. Whether you desire to transform a small classroom into a captivating space or revamp your entire organization, our design experts are eager to assist you. We pay attention, learn your preferences and dislikes, and tailor a space exclusively for you.

YOUR PARTNER IN DESIGN

FREE DESIGN SERVICES INCLUDE:

- Space conceptualization
- Budgeting for various project sizes
- Color and paint coordination
- Textiles and finishes
- Design for any space
- Furniture arrangement
- 3D room visualization
- Merging classic and contemporary
- Sustainable design
- Creative storage solutions

SEE YOUR SPACE TRANSFORM

WITH MIEN CET:

Allow our highly-skilled consultants to wield the power of MiEN CET, our cutting-edge space planning tool, to create a lifelike simulation of your envisioned environment. By seamlessly integrating a curated selection of MiEN products into the design, you'll be able to visualize the end result with breathtaking accuracy. MiEN CET eliminates the guesswork commonly associated with spatial design, leaving you with nothing but excitement and confidence in your future space.

THOUGHT LEADERSHIP:

At MiEN Company, we are proud to have industry experts Cecilia Cruse and Dr. Christina Counts on our team. Cecilia Cruse, our Special Needs Consultant, brings a wealth of knowledge in creating inclusive learning environments that cater to diverse student needs. Dr. Christina Counts, our Vice President of Education, is a renowned thought leader in educational space design and innovative learning solutions. Both Cecilia and Dr. Counts contribute significantly to our mission through their insightful whitepapers, consultations, and forward-thinking designs that transform traditional classrooms into dynamic, engaging learning spaces.

CEU:

MiEN Company is proud to offer two Continuing Education Unit (CEU) courses, both certified by AIA and IDCEC, tailored for the architect and design community. Our course "Power Up and Press Play with Esports Spaces" dives into the essentials of designing cutting-edge esports environments, addressing the specific needs and dynamics of this rapidly growing field. The second course, "Linking Learning Space Design to Evidence-Based Research," focuses on integrating research-driven principles into the design of educational spaces, ensuring they promote effective learning outcomes. These courses reflect our commitment to providing industry professionals with the knowledge and tools to create innovative, functional, and research-backed learning environments.

EMPOWERED PD:

EmPOWERED PD, a sister company of MiEN Environments, offers solutions for educators navigating future ready learning environments. Through research-based best practices, our customizable packages help educators to incorporate differentiated instruction, understand the needs of an active learning environment and Universal Design for Learning (UDL), prepare their rooms for learner success, and design learning spaces that match the pedagogical changes needed for learner success. We offer 2 hours to 40 hours of professional development certification. To learn more about EmPOWERED PD, visit: www.pdbymien.com

CUSTOMS:

MiEN Company excels in creating custom educational furniture tailored to meet the unique needs of any learning space. Whether it's crafting a table to fit perfectly between two columns, designing soft seating for a specific area, or producing work surfaces in unique shapes and sizes, our expert team is committed to delivering solutions that enhance functionality and aesthetics. Our dedication to customization ensures that every piece we create not only fits the physical space but also supports the dynamic needs of modern educational environments.
