

Company Information

LION provides customers with the right training tools, situations, and structure to safely train teams in various environments. From digital training props that provide realistic, yet controlled scenarios, to gas-based props that evaluate the training situation with real fire, to fully-customizable carbonaceous fire situations. Their proprietary technology allows firefighters to train in countless locations and stage different situations to diversify training so that you can ensure your trainees are prepared to handle any real fire situation.

Products on Contract

- Fire Service Simulation
