- **Global Expertise:** Ability to fulfill requirements across the USA, Canada, UK, and India.

Our Mission

To empower businesses by connecting them with top-tier talent, delivering innovative solutions, and fostering success through a collaborative and client-focused approach.

Core Competencies

Quality & Compliance: We specialize in CAPA (Corrective and Preventive Action), GMP (Good Manufacturing Practices), audit support, and pharmaceutical quality systems. We provide dedicated professionals in pharmaceutical quality systems, quality assurance (QA), quality control (QC), regulatory compliance, and CAPA management.

Diverse Skill Set Placement: From R&D engineers to data managers, we deliver top-tier talent across a variety of specialized fields. We can provide dedicated professionals with expertise in clinical research, regulatory affairs, data science, process engineering, project management, IT, and more, ensuring you have the right team to meet your unique staffing needs.

Validation Services: We offer comprehensive validation services, including commissioning, process validation, environmental monitoring, and tech transfer. Our professionals have in-depth knowledge of validation methodologies (IQ, OQ, PQ) and are experienced in ensuring regulatory compliance, technical assessments, and continuous product integrity across various industries.

Engineering Excellence: Our engineering professionals are skilled in mechanical, electrical, and process engineering, and are adept at providing solutions for various industries, including manufacturing, energy, and construction.

Our Services

Contract Staffing: Delivering skilled professionals on a temporary basis to support short-term projects, seasonal demands, or specialized expertise requirements.

Permanent Staffing: Identifying and placing top-tier candidates for long-term positions, ensuring alignment with your organizational goals and culture.

Contract-to-Hire Staffing: Offering a seamless path to evaluate potential employees during a trial period before transitioning them into full-time roles.

Recruitment Process Outsourcing (RPO): Managing your entire recruitment process, from candidate sourcing to onboarding, to help reduce costs and improve hiring.

Payroll Outsourcing: Streamlining payroll management for contingent workers, ensuring compliance, accuracy, and time savings.

SOW (Statement of Work) Projects: Providing specialized teams to execute project-based tasks with defined deliverables and outcomes.
