

DARKHORSE
EMERGENCY

Public Safety Dispatch,
Record Management,
and Data Solutions

Company Information

Darkhorse Emergency helps public safety leaders make and defend their biggest decisions: where the next station goes, how many firefighters they need, and how to improve response times. Our software runs on each department's own CAD and RMS data to keep its Standards of Cover and Community Risk Assessment current, and shows the effect of a new station, a moved unit or a staffing change before it is made. An analyst works alongside your team. Departments from three stations to 85 work with us across North America to plan stations, support CPSE accreditation and make the case to council.

Products on Contract

- Darkhorse Response: Standards of Cover & response analysis
- Darkhorse Risk: Community Risk Assessment
- Station location & deployment scenario modeling
- CPSE accreditation performance tables & reporting
- Fire department data analytics & dashboards
- Consulting & dedicated analyst support
